Vewin's main policy issues

- **EU Water Framework Directive**
- **Resources protection**
 - Delta programme: fresh water
 - Use of chemicals in agriculture & others
- **Water supply security**
 - Contingency- & Crisismanagement
- **Cost transparency**
- **Towards an integrated water chain**

Contingency management I

- Basic security level

Contingency management II

- Contingency plan
 - From infrastructure to distribution
 - Integral risk analysis

Contingency Management III

- External safety
