

# My time at 100RC:

## Lessons learned from the front lines of an urban resilience revolution

October 2019  
Michael Berkowitz

**California Wildfires**

**Santiago, Chile Unrest**

Mindinao, Philippines Earthquake

Tokyo Area Typhoon

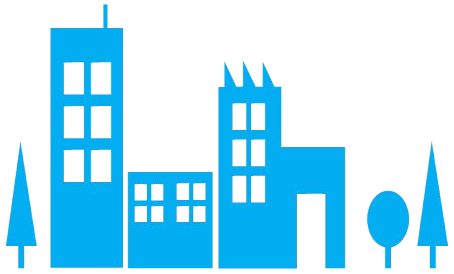

# An ambitious effort to change the way cities plan and act

# An ambitious effort to change the way cities plan and act

# Six Successful years

## CITY ACTION

**60** Resilience  
Strategies globally

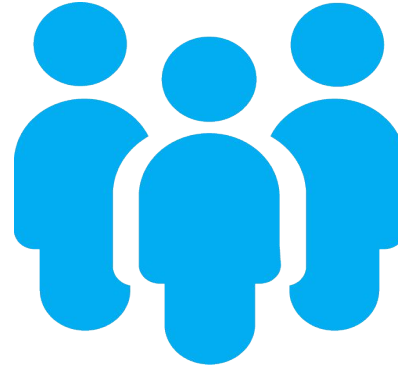

**3,000+** concrete  
actions proposed

## RESILIENCE SOLUTIONS

**282** collaborations  
between partners and  
cities to address city  
challenges

**\$210M** of pledged support  
from Platform Partners

## CITY LEADERS

**83** CROs hired and  
trained to lead their  
cities' resilience efforts

**19,000+** hours of  
resilience  
capacity-building  
delivered to CROs

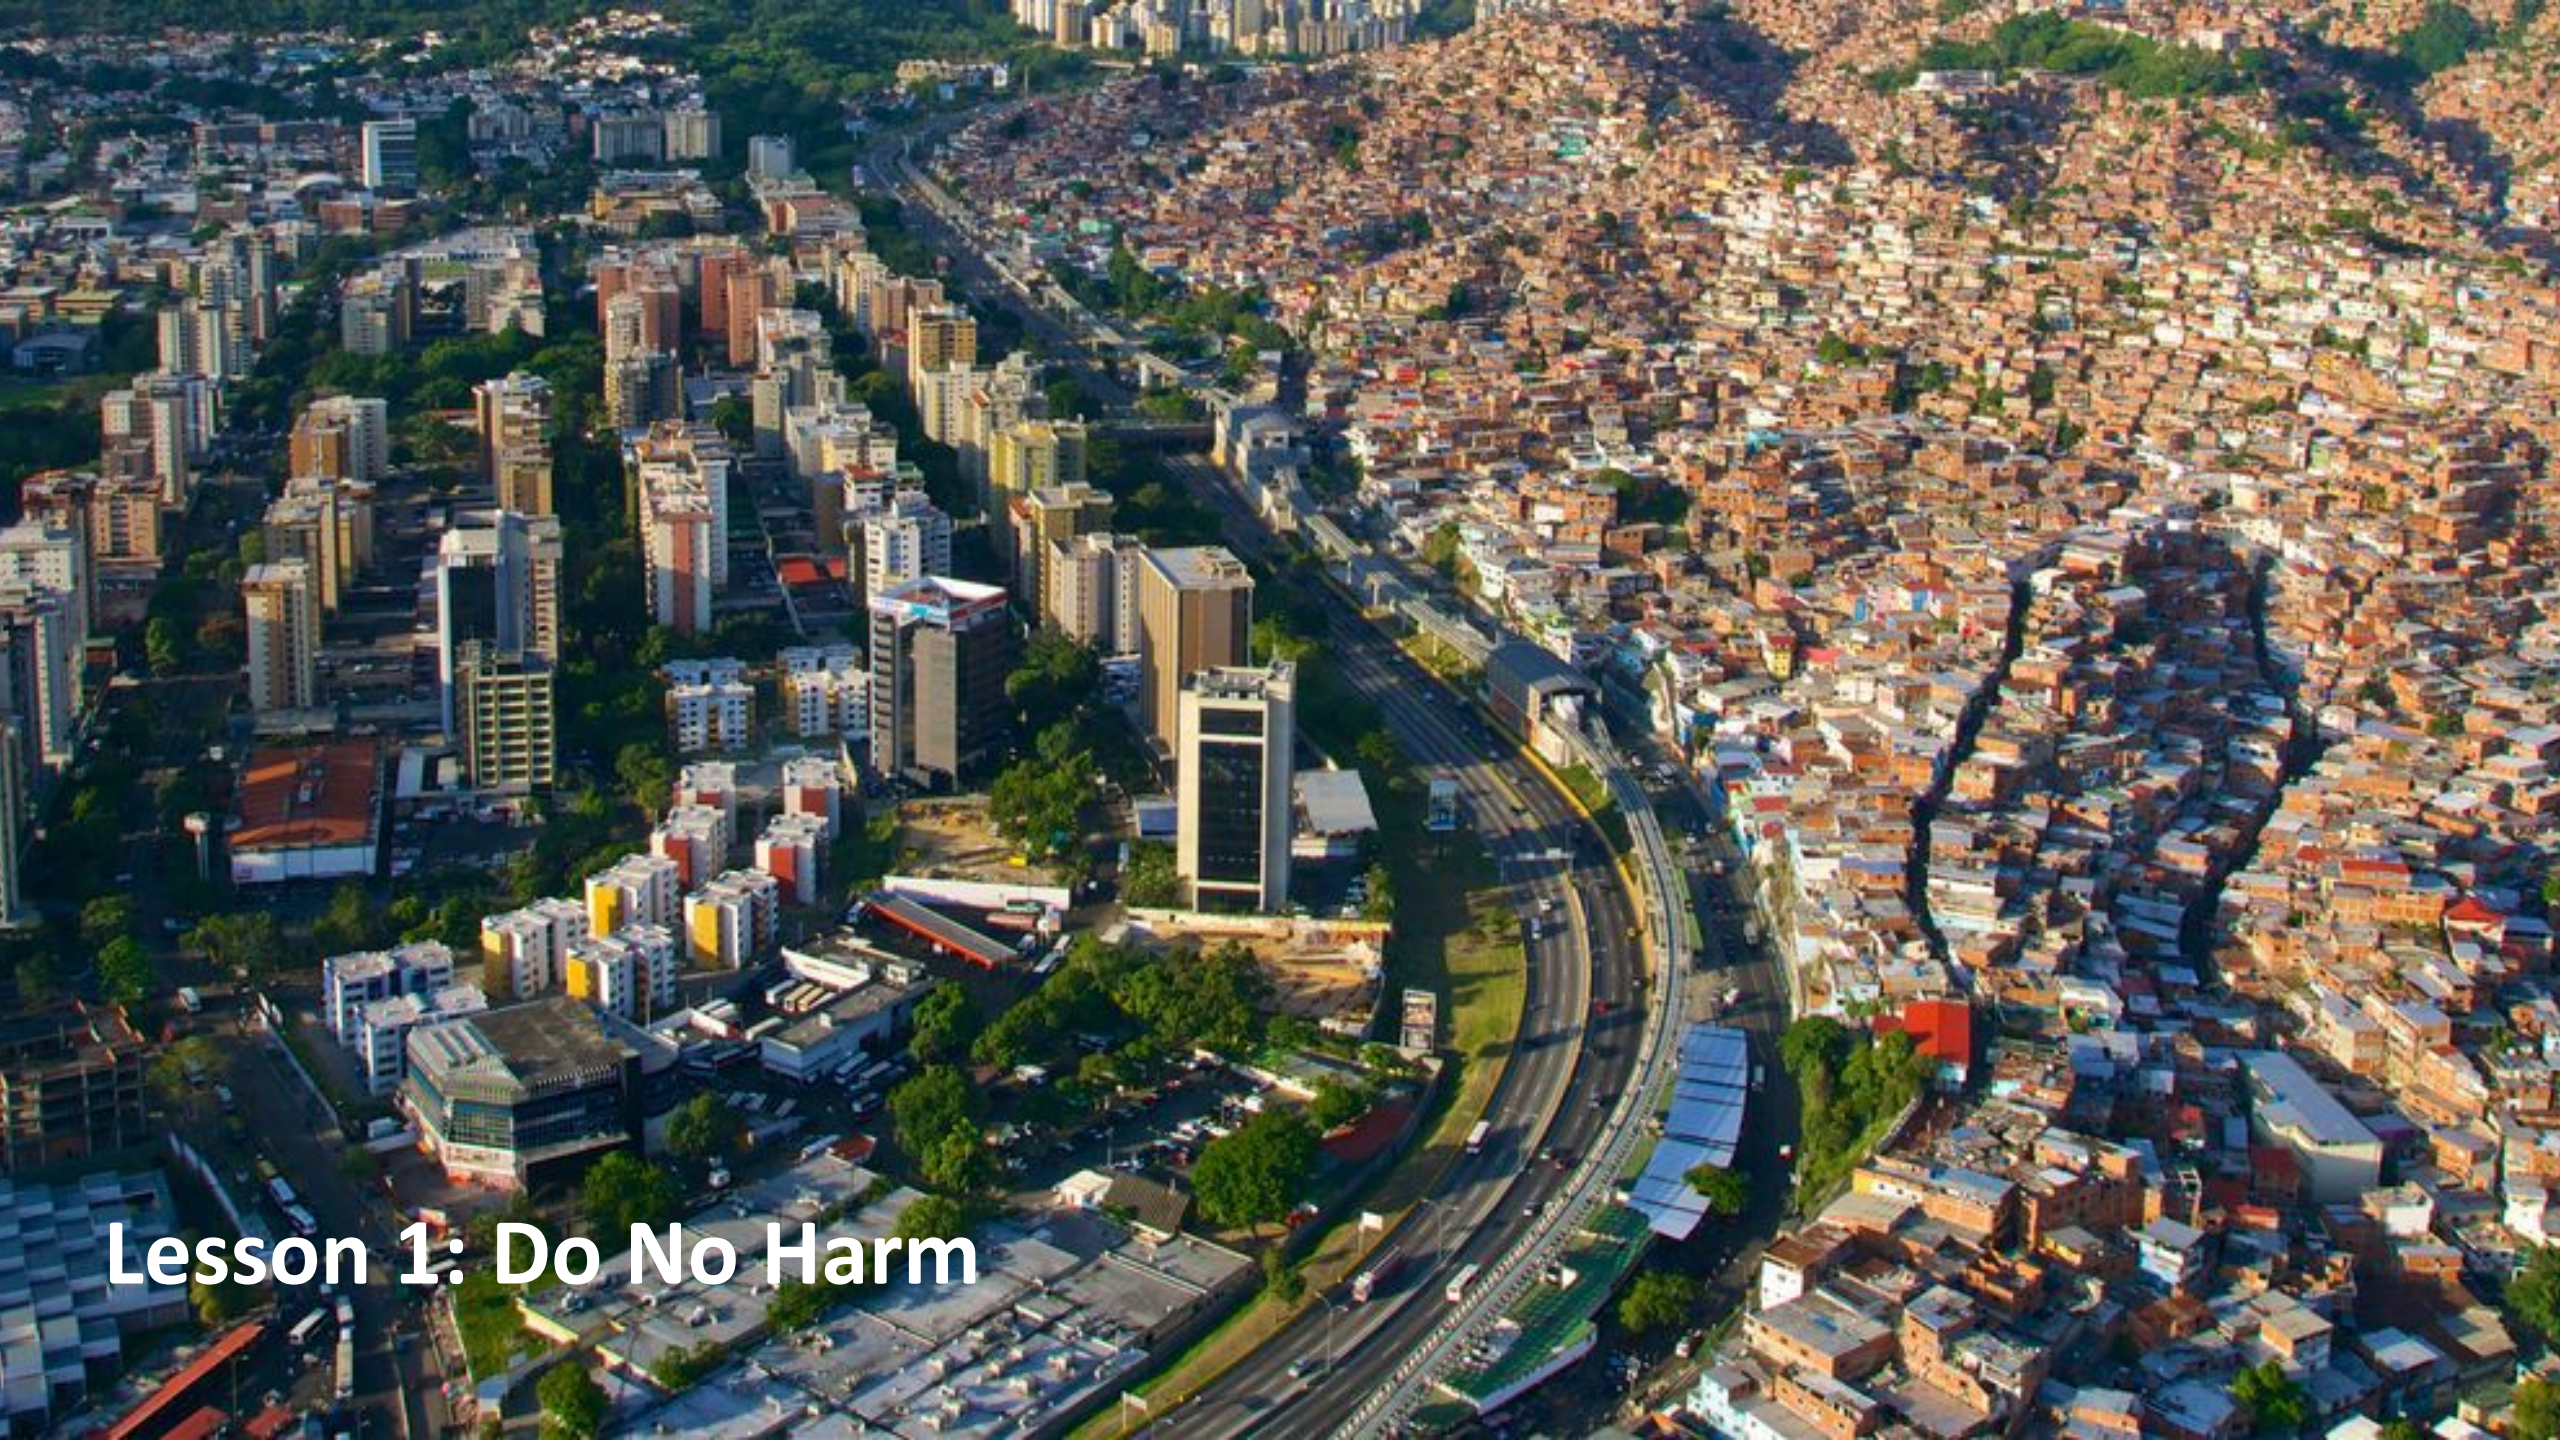

## GLOBAL INFLUENCE

**More than \$4 billion**  
leveraged from national,  
private, and philanthropic  
sources to implement  
resilience projects

**2,200** key media citations of  
100RC's work and  
thought-leadership

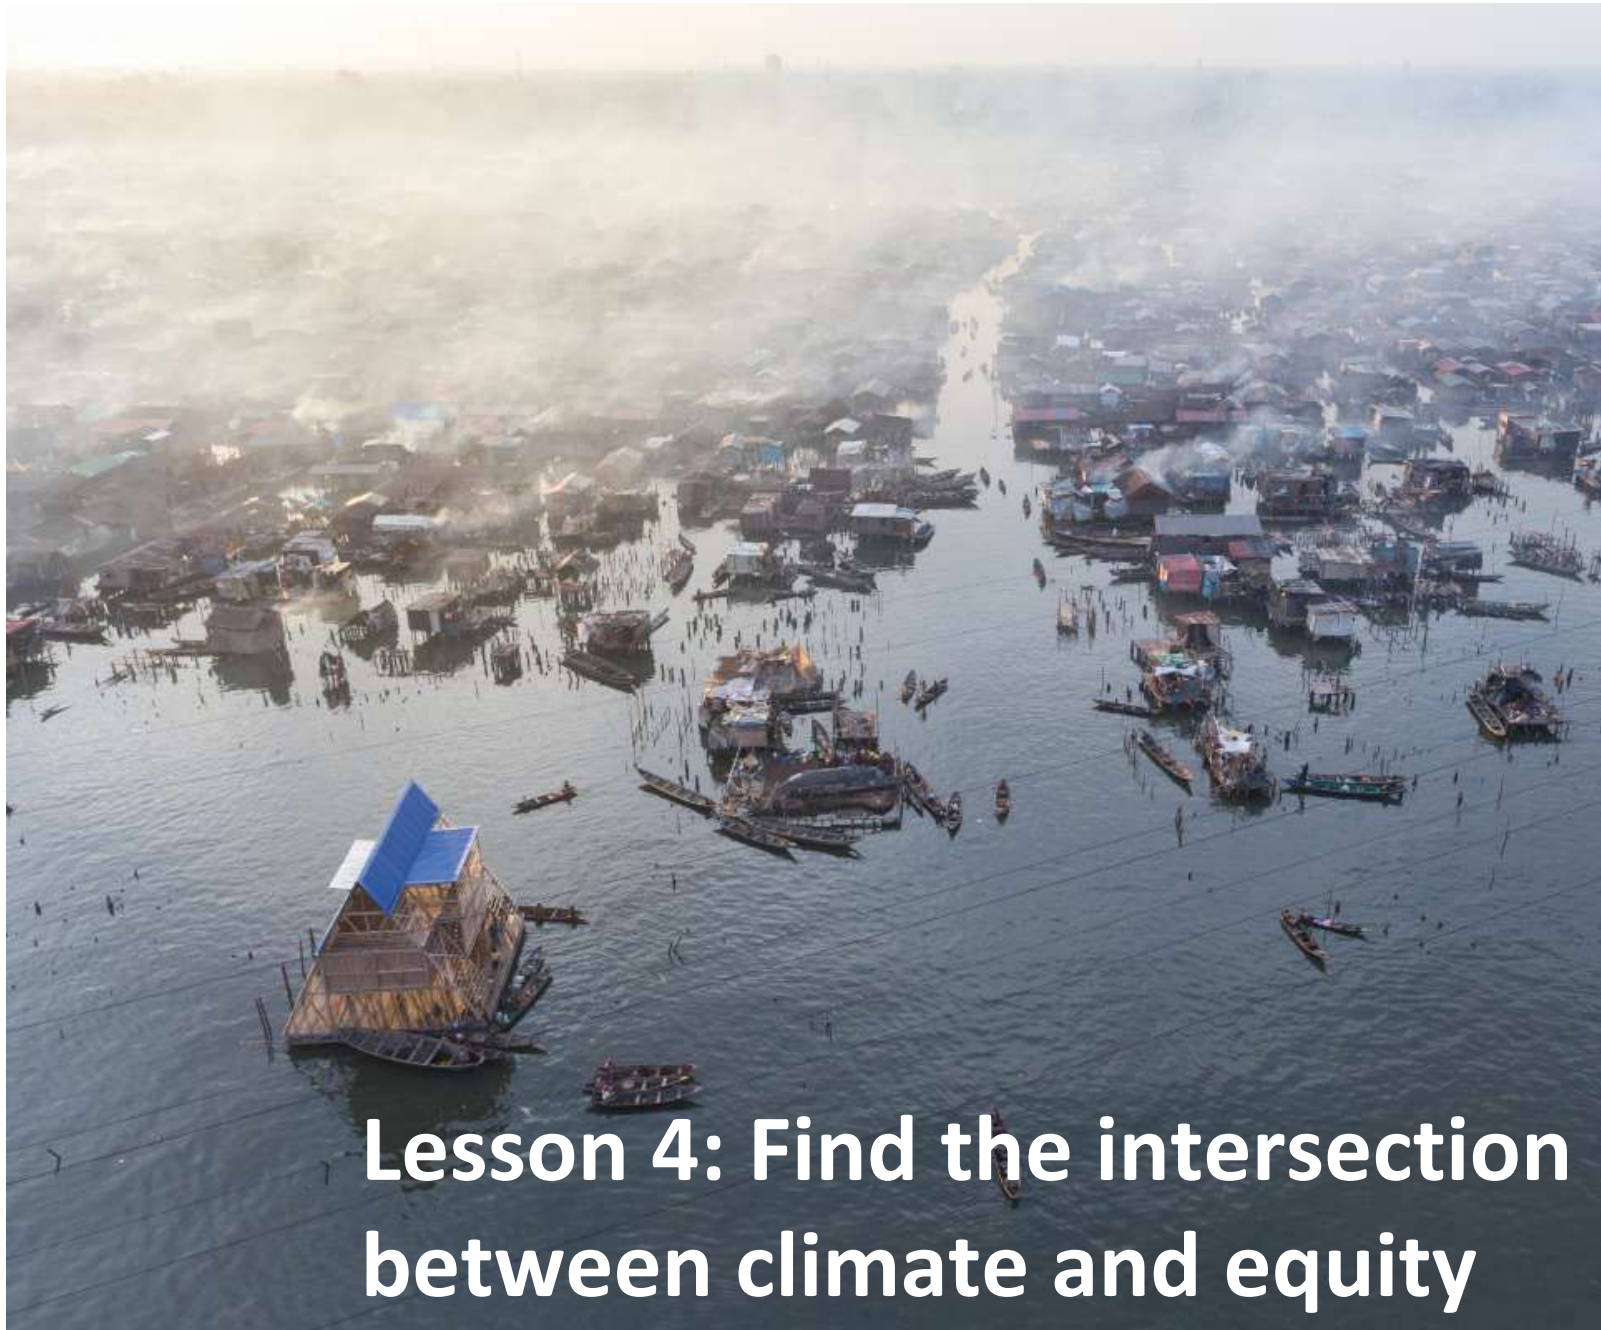

Lesson 1: Do No Harm

Lesson 2: You can fix bad design  
Lesson 3: Small interventions work

**Lesson 4: Find the intersection  
between climate and equity**

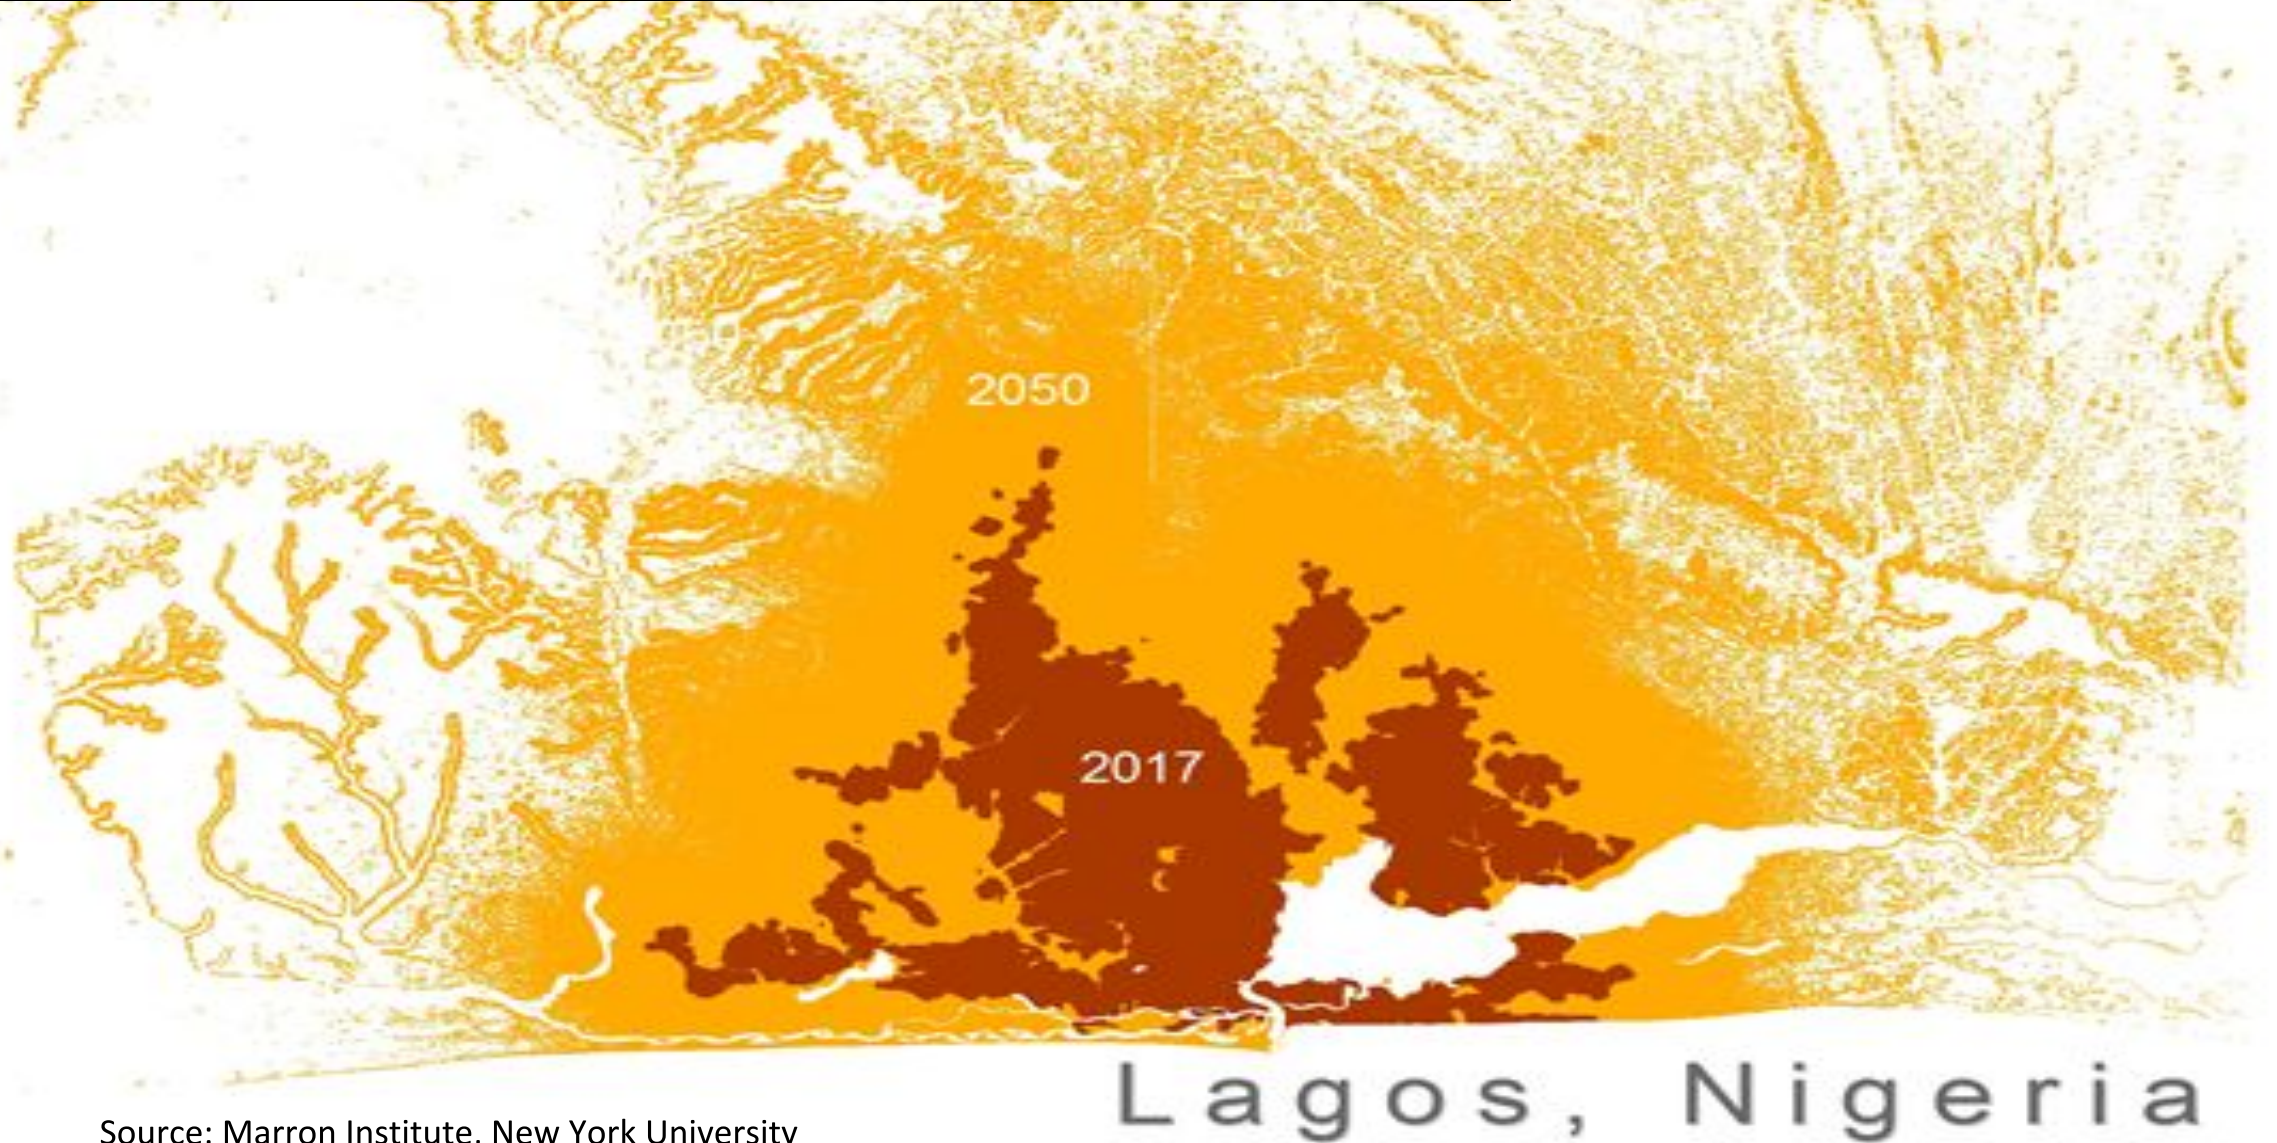

Lesson 5: Unusual partnerships  
are hard, but rewarding

# Lesson 6: Rapid growth and governance challenges are going to continue to define our cities

Source: Marron Institute, New York University

**Lesson 7: You will need a core group of true believers to drive the revolution**

**Thank You**
